

LITTLEHAMPTON COMMUNITY FRIDGE

VOLUNTEER OPPORTUNITY – FRIDGE MONITOR

WHAT IS THE ROLE?

Fridge Monitors are responsible for ensuring food stocks in the Community Fridge are safe and good to eat and to maintain fridge cleanliness and hygiene. The fridge and shelving needs to be checked when opened and closed each day.

The Fridge Monitor role involves:

- Opening/closing the Community Fridge
- Checking that all food in the fridge and larder is good and safe to eat
- Checking food is stored and packaged correctly
- Disposing of any food and packaging waste appropriately
- Cleaning the fridge – daily and weekly tasks
- Completing temperature checks
- Filling in cleaning rota and temperature records
- Update pictures of the fridge on social media
- Shifts are estimated to take about 1 hour. We ask that you can commit to at least 1 regular shift a week. This role could be combined with the Food Collector role.
- We will provide full training, so no previous experience is required. It is desirable for Food Monitors to have good communication and literacy skills and be able to use your initiative and work independently. There are opportunities available to buddy up with another Food Monitor, so people of all abilities can participate in the project. A positive attitude, enthusiasm and dedication to reducing food waste and helping in the community are great assets for this role.

WHAT WILL YOU GAIN FROM VOLUNTEERING ON THIS PROJECT?

- Be part of an innovative food sustainability project that helps to save food, feeds people and reduces food waste.
- Gain training and experience in food handling, storage and hygiene protocols.
- Further your communication skills and demonstrate you can work independently whilst being part of a team and using your initiative.
